

I just found out that there is a new broadband service (LPFM). I have also found out that the FCC is now proposing to expand this service and take priority over the current FM stations. I am writing on behalf of KLOVE radio.

This station is heard all across the United States, and is affecting thousands and thousands of peoples' lives in positive ways. There are so many radio stations that are filled with trash and are feeding into the decrease in moral of this country. Why would you even consider taking away this station that is making such an influence in peoples' lives? This radio station daily gives encouragement to people who are struggling through life like so many others. The music is safe to listen to for all ages, and there morning show is like no other on the radio. I had to stop listening to the radio in the morning for years before I discovered KLOVE. Normal radio stations are filled with filth and trash that doesn't need to be in peoples' heads.

The goal of KLOVE is to encourage and motive people. They strive to build safe, better community for people all over the Country. This is an amazing radio station and I ask you, when considering LPFM over KLOVE, to please let KLOVE stay on the radio.
